

# UNINTENDED PREGNANCIES IN INDIA

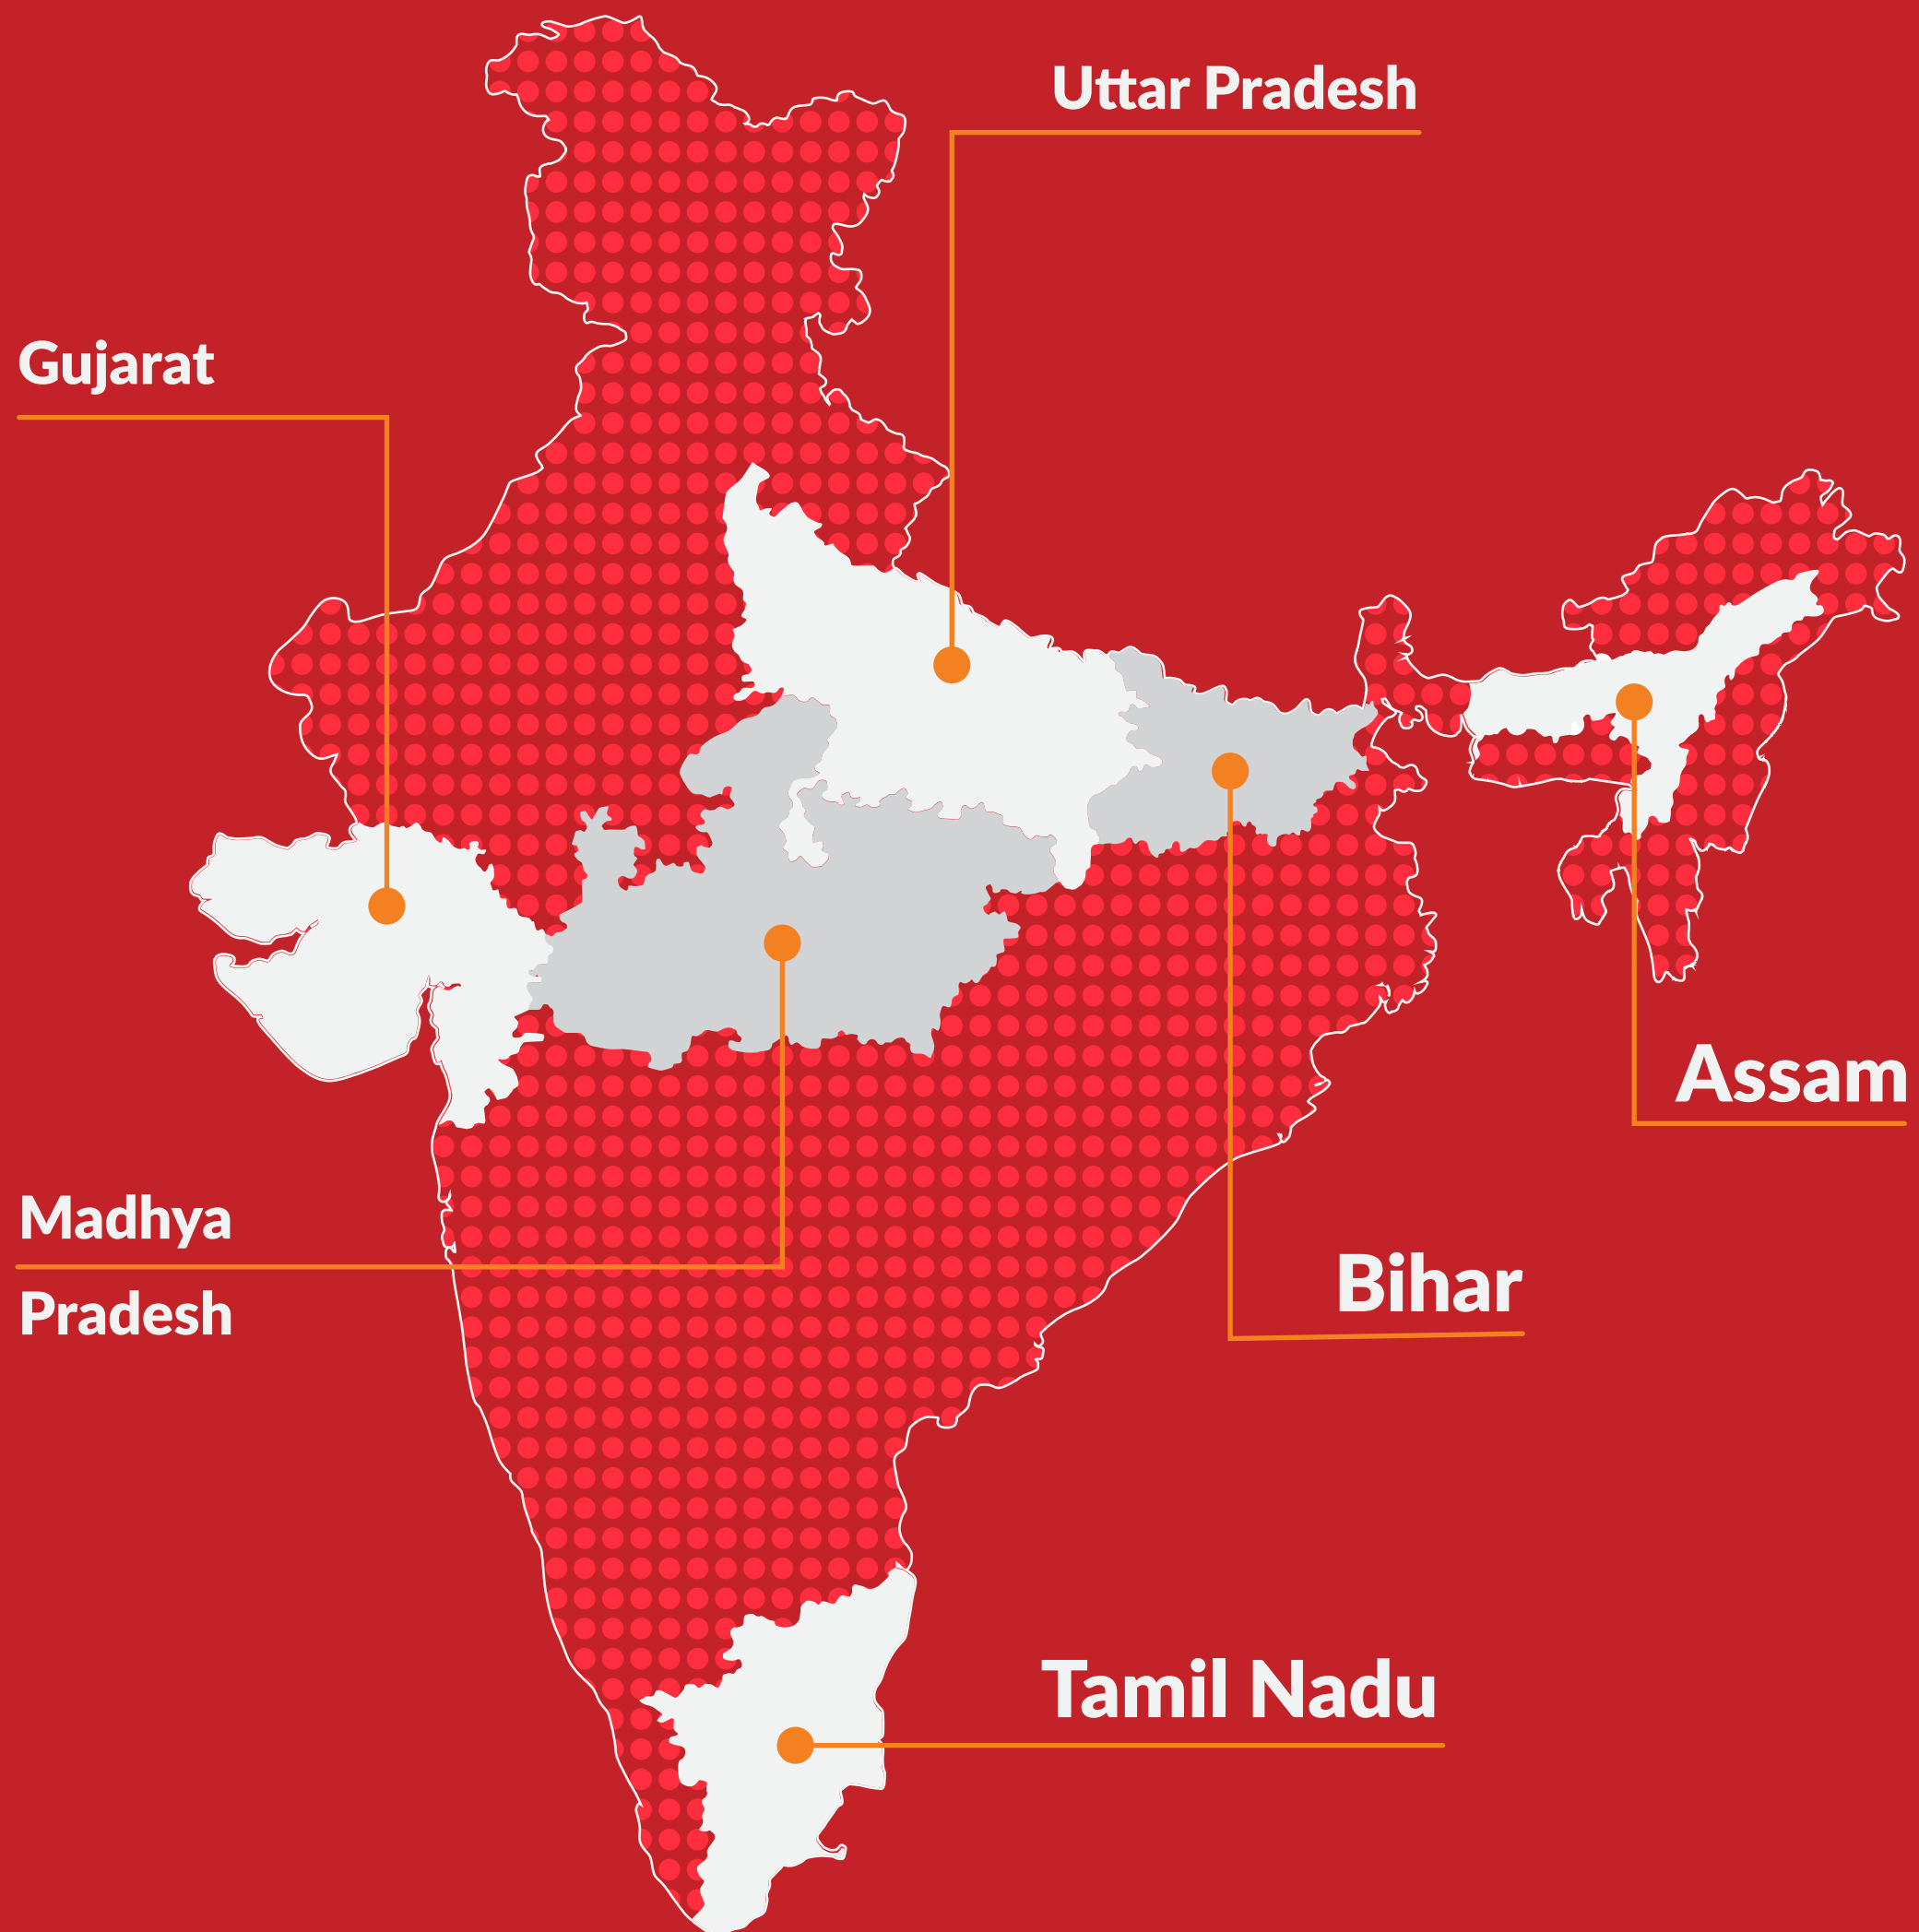

## The Data We Can't Ignore

Behind every number is a story of access,  
awareness – and the right to make  
informed choices.

*Source: Guttmacher Institute, 2020*

# ACROSS SIX STATES

*Nearly half of all pregnancies were unintended.*

This points to significant gaps in contraceptive access, information, and quality of care.

# UNINTENDED PREGNANCY RATES PER 100 PREGNANCIES

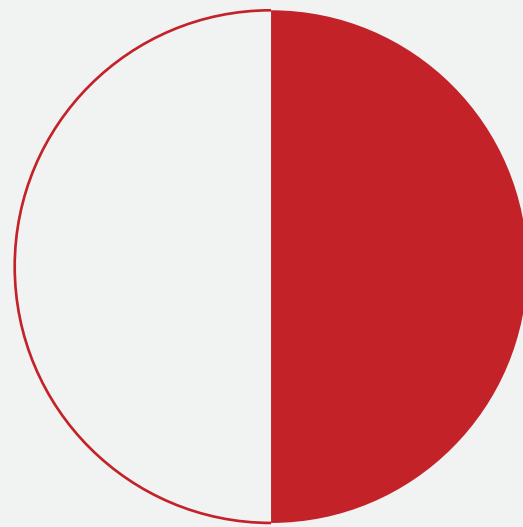

**52%**

Assam

**50%**

Bihar

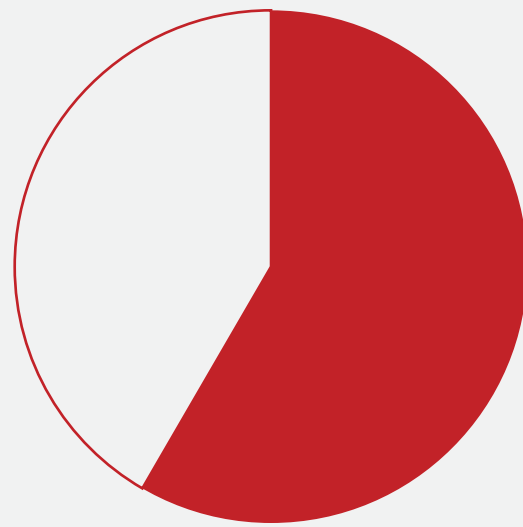

**47%**

Gujarat

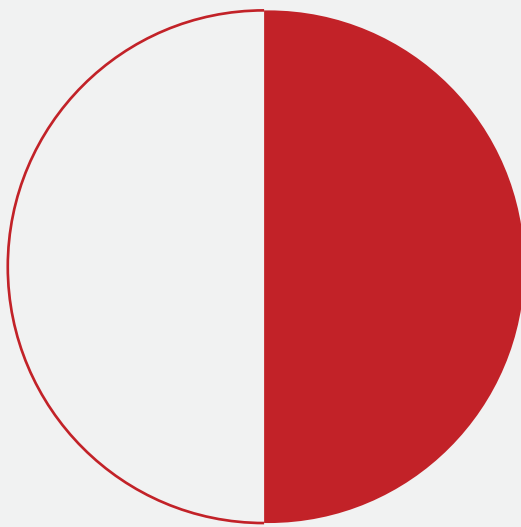

**42%**

Tamil Nadu

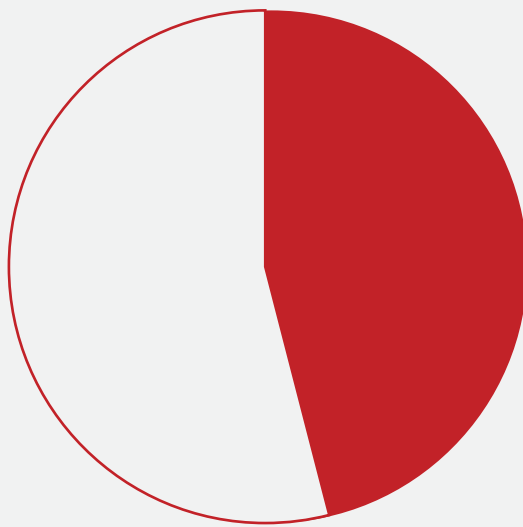

**50%**

Madhya Pradesh

**54%**

Uttar Pradesh

# FROM DATA – TO ACTION.

*Reducing unintended pregnancies  
means:*

Better contraceptive access

---

Comprehensive sexuality education

---

Non-judgmental counselling

---

Expanded safe abortion

---

*Because every person deserves the right to  
plan their pregnancy — and their future.*
